

# Lesson Plan Template

<b>What is your targeted lesson goal?</b>

**Think about the RANGE of your learners. What can you anticipate about the barriers to their learning in this lesson?**

What barriers do you anticipate? (Curricular or Environmental)	How can you address those barriers?

<p><b>Design Multiple Means of Engagement:</b>                  How will students connect with this lesson? Will there be collaboration opportunities?                  How will students receive feedback and have time for reflection?</p>

<p><b>Design Multiple Means of Representation:</b>                  How will the content be presented? What options for receiving information will students have? What tools will be available to help students understand and engage with material?</p>

**Design Multiple Means of Action and Expression:**  
What options will students have to demonstrate their understanding?

**Materials Needed**

**Instructional Plan**

**Post-Lesson Reflection:** What went well? How did your learners engage with this lesson? Were there any barriers you had not predicted? If so, what could be adjusted to remove or reduce those next time?
